

Customer Success Story

Dematic Pte Ltd

INDUSTRIES:

Industries Overview

Intralogistics Solutions
Designed for Your Vertical Market

Background

Dematic is an intralogistics innovator that designs, builds and supports intelligent, automated solutions for manufacturing, warehouse and distribution environments.

Industry: Logistics and Supply Chain Automation Provider

Product: Yeastar S100 VoIP PBX with Linkus Cloud Service

Solution Highlight:

Their business communication has been greatly enhanced with Yeastar Linkus Cloud solution, that supports entire organization including remote workers. Ease of use and cost effectiveness are the main advantages in every communication solution.

— Challenge

- Current legacy system lacks flexibility and features, that could not fulfil their business needs.
- Unable to support mobility which is the new way of working.
- Effort and hassle of maintenance.
- High monthly IDD cost.

— Solution Benefit

- Linkus UC Clients empower users to enjoy Unified Communication with useful features, especially mobility and remote collaboration.
- Reliable and scalable solution with Yeastar S100 VoIP PBX that helps to enhance communication workflow.
- User-friendly features and effortless remote management.
- A future-proof business communication system that grows with customer's business.

“The benefits of Yeastar Linkus Cloud are the compelling reason for our selection criteria and decision. With the excellent service rendered by One-Net Team, we are confident and assured of their long-term support. We are pleased to share our experience for using such a powerful and cost-effective communication system with any organization.”
